DR. C. J. LYNDE READS PAPER ON OSMOSIS

Instructive Meeting Held by
Physical Club in Macdonald
Physics Building.

EXPERIMENTS DESCRIBED

Paper Was Intensely Interesting
and Continued Much Food
For Thought

Yesterday afternoon the Physical Society had a very pleasant and instructive meeting in the Macdonald Physics Building. After tea had been served, the minutes of the previous meeting were read by the secretary, Miss Violet Henry, and approved. As there was no further business to discuss, Dr. C. J. Lynde was called upon to deliver his paper on "Osmosis in Soils."

Dr. Lynde gave a detailed account of experiments that had been made at Macdonald College to prove that, be-attraction, evaporation, etc., water was sides the well-known ways of capillary distributed through the soil by osmosis. He gave a detailed account of nine experiments that had been made to prove that there was such a thing as osmotic flow in the earth. The material first used in these experiments was alluvial clay weakened with water. One of the difficulties they met with was that there were signs of osmotic flow when water alone was used. This difficulty he cleared up, however. It was noticed that the osmotic flow was increased when the temperature was raised. Tests were also made with solutions of sugar and salt. It was found that when a solution of sugar was used the osmotic flow was increased. In closing, Dr. Lynde said that he was convinced by these experiments that moisture was distributed by osmotic flow, but if any one wished to express his opinions, he would be glad to hear them. At this a short discussion arose.

After a vote of thanks to Dr. Lynde had been moved and carried, the meeting adjourned.

CLUBS ARE ASKED TO GET PICTURES

Very Important That Appoint-
ments Be Made Early With
Rembrandt.

The importance of having the photos taken for the Annual at once cannot be too often brought forward. The following clubs will please see about it through their secretaries. Make appointments with Rembrandt.

- Students' Council.
- McGill Y.M.C.A.
- McGill Y.M.C.A.
- McGill Union.
- Arts Undergraduate Soc.
- Science Undergraduate Soc.
- Medical Undergraduate Soc.
- Law Undergraduate Soc.
- Literary and Debating Society.
- Delta Sigma Soc.
- McGill Band.
- Canadian Club.
- Western Club.
- Maritime Club.
- Eastern Townships Club.

- R. V. C. Athletic Association.

MANDOLIN PLAYERS.

A meeting for organization purposes will be held by the McGill Mandolin Club in the studio of the Peate School of Music at 584 St. Catherine st. west, on Thursday, Oct. 28, at 7.30 p.m.

SCARE AT UNION

Steam Escaping From Kitchen Win-
dows Gave Fire Brigade a Run.

Steam escaping from the kitchen window at the McGill Union yesterday morning, at eleven o'clock, proved too much for the nerves of some excitable individual in the neighborhood, who phoned in a fire alarm. The district brigade responded in short time and before Bob Brown and the other inhabitants of the Union realized what was happening firemen with babcocks were running through the building and the hose was being unloaded from the trucks to play upon the supposed blaze. Consternation reigned throughout the Union until the firemen finally had it hammered into them that there was no fire and that it was all a mistake. Chapman, the engineer, dropped his oilcans and rushed to see where the fire was; Bob Brown took to the open air in an effort to seek safety, while Mr. Randall wanted to know what the matter was. In the midst of the excitement the guard of the Fourth Universities Company was turned out and marched to the Union to assist in extinguishing "the blaze," should its services be required. And now everybody wants to know what boob turned in the alarm.

COUNCIL MOVES IN FAVOR OF THE REGIMENT

Motion Made to This Effect at
Meeting Held Last
Night.

WILL ENTER CITY LEAGUE

President of Hockey Club Au-
thorized to Enter Club
in the League.

A regular meeting of the Students' Council was held last evening in the Union. The president reported the freshmen-sophomore scrap was conducted on University property, after which the men paraded down town. He said that the procession was very orderly—no missiles thrown or damage done.

The Council then passed the following resolution with reference to the objectionable statements in the Star of Friday, October 22, re the conduct of the students during the freshmen-sophomore procession:

"We, the Students' Council of McGill University, take strong exception to the entirely unwarranted statements in the report of the freshmen-sophomore procession, which appeared in the Montreal Star of Friday, Oct. 22. We feel that a gross injustice has been done to the student body by the publication of such unfounded and untrue statements. We therefore think that an apology should be forthcoming."

The matter of a football game in aid of the Red Cross Society was left to Mr. Wollatt to take up.

A vote of thanks was tendered to the president of the Athletic Association for his untiring efforts in organizing sports day.

Mr. T. W. L. MacDermot was appointed managing editor of the Daily for the current session. In regard to the appointment of a circulation manager, it was decided to call for applications for the appointment, the commission to be 35c per yearly subscription.

A motion was passed to the effect that in future the Daily publish no correspondence except over the signature of the writer.

The next meeting of the Council will be open to all undergraduates. This will be held next Monday evening.

The Council then resolved to put itself on record as being in favor of military training in the university, and regrets that there has not been a more generous response on the part of the students.

A motion to send a copy of the resolution passed at the annual society meeting re residences to the corporation, was carried.

The president of the Daily stated that he would be absent for the month of November on military duty, and Mr. Cushing was appointed acting president in his absence.

The president of the Hockey Club was authorized to enter the club in the City League should the club wish to do so.

There being no further business, the meeting adjourned.

"GERTRUDE THE GOVERNESS."

The rehearsal of "Gertrude the Governess," which was held in the common room of the R. V. C. yesterday afternoon, promised great things for Wednesday. The following is the cast of characters:

- Gertrude.....Winifred McLaren
- Lord Ronald.....Marjorie Spier
- The Countess of Nash.....Alice Melvin
- Earl Nash.....Lois Fowler
- Family butler.....Grace McDonald
- Groom.....Enid Price
- Gertrude's aunt.....Olga Rogers
- Russian.....Jessie Elliott
- Gardeners.....Anpa Pherry, Jean McCulloch and Vera Adams
- Raise Hell Freda.....Margaret Harvey

THE Y. M. C. A. AND ITS VERY SPLENDID WORK

Students of McGill Should Sup-
port the Society Strongly
This Year.

BRANCH NOW AT FRONT

Bundles of Socks, Etc., Are Sent
Over to the Men in
Trenches.

There are two institutions in McGill at least which hardly receive the amount of attention and active appreciation they deserve, namely, the Daily and the McGill Y.M.C.A. They are too often taken for granted.

First and foremost, this institution is for the use of the students. The constitution states at the outset that its object is to promote the spiritual and social life of its member, for and by the students.

The Strathcona Hall is a home for a number of men, and by its position, at the very entrance of the University, is able to serve as an invaluable common ground where the students can meet at any time. The work of the association is as varied as it is good. Those who wish to help others and those who wish to get any advice at times are all to be satisfied for the asking at the Y.M.C.A.

Freshmen are particularly to be benefited by the Y.M. when they strike a new city without any friends. They are helped to find rooms and comfortable lodgings.

In order to promote a healthy social vein throughout college, several evenings for the holding of conversations, skating parties, etc., are scattered throughout the year in concert with the R. V. C. Amongst the men, Sunday sings, Bible study classes and addresses are of great service in making the out-of-town—and town student, too—comfortable.

To-day the Y.M.C.A. has at the front a splendid branch which fully exemplifies the work our association does. A fully equipped Y.M.C.A. at the front, an association which is unique in the completeness of its fittings, surpassing all other clubs of its kind there, is at the disposal of thousands of men. A library of 400 volumes, 43 periodicals, supplies literary occupation and pleasure. Lounging rooms are there to read in, Bibles and sacred books are distributed through the hospitals. Periodically bundles of socks, handkerchiefs, etc., are sent over to the members of the First University Company.

Those who were at Niagara last spring will remember how useful the Y.M.C.A. was, even in a place where there was a neighboring village.

The Hall is supported entirely by voluntary contributions. Nearly all the men use the Hall, and the least they can do is to offer something towards its upkeep. The total budget is \$10,000 a year, which covers everything. A large part of the money comes from the graduates and interested business men in Montreal.

Since no fees are asked from the students, it is necessary every year to institute a campaign to collect from the college money which ought to represent an opportunity to repay the work and privileges of the Y.M.C.A. This campaign will start next week, and those to whom the Y.M. is a benefit should help it forward. A later notice will follow regarding the details of the campaign.

AMERICAN CLUB

A Smoker to be Held Next Friday at
the Alexandra.

The American Club will hold the first smoker of the season at the Alexandra Cafe next Friday night. A musical programme is being prepared to go along with the menu and smokes. Everything points to this function as being a smashing success. Every American should keep this date open and rally with the boys at the Alexandra on Friday evening.

GRADUATE WEEKLY

Sawyer, Med. '05, First Subscriber.
Thinks Scheme Admirable One.

Dr. A. R. Sawyer, Med. '05, now of Boston, Mass., who was a caller at the McGill Union yesterday, was the first graduate to subscribe to the McGill Daily under the new arrangement of weekly graduate editions. Dr. Sawyer thought that the scheme is an admirable one, and will be particularly useful in bringing together the graduates who now reside in different parts of New England. A graduates' society was formerly in existence in that section, but was disbanded some years ago.

ANNUAL BOARDS.

A joint meeting of the annual business and editorial boards will be held in the R. V. C. at 7.45 o'clock this evening. All will please turn up on time.

The Students and The Star

The following letter touching upon the garbled report of the Freshman-Sophomore "Scrap" which appeared in the issue of the Montreal Star of October 22, was written by Mr. J. A. Nicholson, Registrar of the University, and was despatched to the Editor-in-Chief of the Montreal Star on Saturday night:—

To the Editor of the Star:

Dear Sir,—The writer of the account of the battle between the McGill Freshmen and Sophomores which appeared in your issue of the 22nd inst., evidently made full use of his imagination, or was "filled up" by some one who did, when he penned the last two paragraphs in which he pictures the contest which began on the campus being waged on the streets of the city, "the two factions fighting tooth and nail" all along Bleury and St. Catherine streets, completely holding up all traffic, whilst many of the onlookers received some of the ammunition intended for the boys." That is how a sensationalist would like to have had it. This was what actually happened.—The "battle," if such it can be called, was finished on the campus, with the greatest good feeling prevailing, and a march in lockstep style was then made along Park avenue, Bleury, St. Catherine, Peel and Sherbrooke streets to the Royal Victoria College where the students disbanded. The line was not broken from the time they left until they returned except for a few minutes about the corner of Sherbrooke and Peel streets, when an electric motor car and a bread wagon attempted to break through. Rightly or wrongly the students considered they had the right of way and resented this interference with their time-honored privileges, the bread driver suffering to the extent of four loaves for his injudicious action. The students would certainly not have committed even this minor offence without a certain measure of provocation. On St. Catherine street there was no interference with traffic to speak of further than was caused by the line winding snakelike from one side of the street to the other for the length of a few blocks, and as for ammunition being thrown around and hitting spectators, this, of course, is the purest fiction, for as already stated there was no "scrapping" and consequently no "ammunition" needed. Moreover, there was no "ammunition," as this had been exhausted hours before they left the campus. With the exception of the little melee for which there was some justification, to say the least, the whole march was carried out in orderly fashion and with great credit to the participants. There was a time when McGill students did not always behave themselves as they should on the city streets when "out for a time," but that day is past, and I venture to assert that no body of McGill men would to-day conduct themselves as your reporter would have the public believe they did on Friday last. It is bad enough to have the University adversely advertised when it is deserved, but that its students should be made out hoodlums when they deserve only praise is not only doing them an injustice but the institution of which they are members as well—an injustice which can only partially be set right (I am sorry to say) by the publication of this letter; the truth of the statements contained in which I am prepared to vouch for on the most reliable testimony.

J. A. NICHOLSON, Registrar

Two issues of the Montreal Star have left the press since this communication was addressed to the Star, and neither of these contains any reference to the matter under discussion.

The opinion of the undergraduate body as a whole is well represented by a resolution which was passed at the meeting of the Students' Council held last evening. The text of this resolution was as follows:

"That the Students' Council of McGill University, take strong exception to the entirely unwarrantable statement in the report of the Freshman-Sophomore procession which appeared in the issue of the Montreal Star of Friday, October 22.

"We feel that a gross injustice has been done the student body by the publication of such unfounded and untrue statements. We feel that an apology should be forthcoming."

Editorial Notes

"To obtain efficiency in the McGill Contingent C. O. T. C., it is necessary to attend only one two-hour drill per week"—The Varsity. Not exactly, Varsity. Parades are held twice a week regularly, each parade being of two hours duration and in addition there is a parade every alternate Saturday, the same lasting three hours. To obtain efficiency, the member of the C. O. T. C. must satisfy his O. C. that he has done his utmost to become a competent soldier and that he has attended at least 75% of the parades. This statement 'could only have been made under a misapprehension of the facts of the case.'"

FIRST CERCLE MEETING WAS GREAT SUCCESS

Twenty-Five Members Attended
Dinner of Cercle Francaise
Last Evening.

DR. VILLARD HON. PRES.

Next Meeting of the Society to
Be Held on Monday,
15th November.

The rejuvenated Cercle Francaise has started with a grand success. The first dinner of the season, held last evening, saw 25 diners around the festive board. To those who noted that but two of these were former members it became doubly apparent that the auspices for the coming year were very favorable.

As this was primarily a business meeting, no outsiders had been invited for the occasion, and the succulent repast having been partaken of, nominations were called for by the acting president to replace those members of the executive who, with over seventy-five per cent. of last year's members are now on active military duty. Dr. Villard was unanimously called upon to accept the honorary presidency, and M. Arthur Terroux was in the same way elected president with an efficient executive to assist him. Fuller details as to the board will be published in a future edition of the Daily.

With the president in the chair, the date of the next meeting was discussed with the decision falling on Monday, Nov. 15, when Dr. Villard promises to treat the members to something unusual in the way of guests, which means that the Cercle is eagerly expecting a choice morsel of "bon francais" for its next after-dinner conference.

This business concluded, the meeting adjourned, with all the members congratulating themselves on their luck in belonging to this ever-popular club.

Daily Staff Photo

The photo of the Daily staff for the Annual will be taken some time on Friday evening. Members please note. Hour will be announced later.

CONVERSAZIONE FRIDAY NIGHT

Fortunate Freshmen Will Meet
Members of R. V. C. in
the Hall.

To-day we learn of the annual conversazione which will be held Friday evening of this week in Strathcona Hall, and it will no doubt recall very vividly to many, delightful evenings spent in the past.

The "conversat," as has been customary for many years, will be given for the Royal Victoria College and freshmen of all faculties. Former "conversats" have been the occasion of good friendships, many of which have lasted long after graduation.

This is the one affair given at McGill whose object is that of having the R.V.C. ladies and freshmen becoming better acquainted, and this it has successfully done in the past.

The invitations will be posted to-day or to-morrow, and, judging from former years, will be readily accepted.

RESEMBLED MONTREAL

This Freshman Was Badly Mixed Up
In His Antecedents.

At the physical examination of freshmen on Tuesday, one recent addition to the University was asked which he resembled in physical build, his father or his mother. He replied, "I resemble Montreal." If he resembles certain sections of the city which are said to exist, we have a vivid mental picture of that freshman.

GOOD CAUSE FOR OBJECTION.

The connection between coal boxes and jam tins in the trenches is at first sight somewhat remote, and the reference has drawn a request for further information. The Flanders variety of coal box is, it may be explained, one of the latest and most up to date of shells. It is called coal box in the trenches because of the trail of thick, black smoke which accompanies it, and the cloud of dustlike smoke which it emits. Tommy Atkins, who has given this name to it, just as he has christened many other objects since the war began, dislikes it, not because of its danger, which is not peculiarly excessive, but for the very reason he has graphically explained in its name. It is, in short, the dirt of the thing that excites his ire.

Celebrated French actress had her ankle X-rayed the other day. Which is nothing at all. Thousands of American women have their ankles X-rayed every day.

McGILL UNION.

A special meeting of the members of the McGill Union will be held on Friday, Oct. 29, 1915, at 5:15 p.m., in the lounge room of the Union.

G. M. WILLISCROFT,
President.

ARTS '17 MEETING.

A meeting of the class of Arts '17 will be held in the reading room, Arts Building, at twelve o'clock to-day. Business: Election of track club representative.

ANY OLD BOOTS? GIVE 'EM TO ART.

Lost and Found Articles to Pass
Through Hands of
Janitor.

There are several pairs of boots walking the Campus this week attached to feet to which they do not belong, as a result of the general exchange of footwear at the Freshman-Sophomore "scrap" last Friday. The present owners of these boots do not feel called upon to hand them over until they are assured that they will be able to find their own footwear and it is suggested that the janitor of the Arts Building be the medium through which all these missing articles may be traced to their rightful owners.

LOST—Pair of tan shoes, rubber soles and heels, at the Freshman-Sophomore "scrap." Please return to the janitor, Arts Building.

LOST—In the Arts Building or on the East Campus last Tuesday afternoon, a black spring overcoat. Finder will please return to the janitor of the Arts Building and oblige owner.

LOST—In the Molson House, on Friday, a brown military boot (right foot), made by the Slater Shoe Co. Finder please return to the janitor of the Arts Building and oblige owner.

LEFT in Examination Room, C. O. T. C. Headquarters, Sherbrooke St., two fountain pens. Owners may have same by applying there Thursday, 4-6 p.m., and proving ownership.

AT MOLSON HOUSE in Freshman-Sophomore Rush, one pair tan boots, rubber heels. Finder kindly leave with janitor of Arts Building.

THE CHERNIYSKY TRIO.

The Cherniysky Trio played last evening in Windsor Hall to a fairly well filled house. The programme follows:

No. 1—Trio for pianoforte, violin and Violoncello, Nol Mendelssohn; Molto Allegro ed Agitato; Andante con moto Tranquillo; Scherzo—Leggiero e Vivace; Finale—Allegro assai Appassionato; Leo, Jan, Mischel Cherniysky.
No. 2—Violoncello, Concerto, in A minor, Golttermann; Mischel Cherniysky.
No. 3—Pianoforte Solos (a) Nocturne in D Flat, Chopin; (b) Studie in F major Op. 25 number 3, Chopin; (c) Rigoletto, Verdi—List; Jan Cherniysky.
Interval of ten minutes.
No. 4—Violin Concerto, Tchaikowsky (First Movement), Leo Cherniysky.
No. 5—Trio for Pianoforte, Violin and Violoncello; (a) Serenade, Widor; (b) Moment Musical, Schubert—Cherniysky; (c) Slav Dance, Brahms—Cherniysky; Leo, Jan, Mischel Cherniysky. Accompanist, Alex. Czerny.

The programme showed great technical ability on the part of all three being particularly true of the pianist and violinist, Jan and Mischel. The tonal qualities of the latter's playing were remarkable in their depth and virility. All three showed a rather striking lack of control over their temperaments which was particularly brought out in their rhythm. Their interpretation was slightly effeminate, due undoubtedly to their training rather than to a lack of individuality.

HOLD THREE DANCES

Proceeds of Queen's Functions Will Be
Given Towards Red Cross Society.

At Saturday night's meeting of the Alma Mater Society of Queen's University, it was decided to hold three dances during the year, the proceeds to be devoted to the Red Cross Fund. By thus limiting the number of social functions, the students feel that greater success will attend the efforts to raise money for this worthy object. The expenses connected with the functions will be kept down as low as possible, and in case the proceeds do not amount to \$100, the student body has pledged itself to make up that amount. In this way \$300 will be added to the funds of the Red Cross.

Dr. Robertson, of Macdonald College, and Sir John Gibson, of Toronto, were nominated for the office of rector of the society, and balloting will be held concurrently with the Alma Mater elections. There was a large attendance of students at the meeting.

What's On

12.00—Arts '17 meeting.
1.00—Y. W. C. A. meeting.
3.00—Delta Sigma Society.
4.15—Soccer practice.
5.00—Track Club meeting.
7.30—McGill Mandolin Club meeting.
7.15—1917 Annual business and editorial boards.
8.00—Arts freshman-sophomore smoker.
Oct. 28—First orchestra practice, 7.30 p.m.
Oct. 29—"Conversat" for freshmen at Strathcona Hall.
Oct. 29—Photograph of Daily staff.
Oct. 29—Union meeting at 5.15.
Oct. 29—Science '16 vs. Science '17.
Oct. 29—American Club smoker.
Nov. 2—Oriental Society at 8 p.m.
Nov. 3—Eastern Townships Club smoker.
Nov. 15—Cercle Francaise dinner.

ORCHESTRA TO HOLD PRACTICE

Apply to Presner, Conductor of
the Orchestra for Further
Information.

SPECIAL APPEAL IS MADE

All Musicians of Any Ability
Are Requested to Attend
This Meeting.

The first orchestra practice will be held Thursday night, at 7.30 o'clock, in the Strathcona Hall. A special appeal is made to freshmen musicians to turn out and help to make the orchestra successful this year. Many of past year's men have left and therefore it is necessary to get all the undergraduate musicians to take an interest in and join the orchestra.

No examination is held as to the merits of the musicians, the only necessity being the ability to play any orchestra instrument fairly well. After the rehearsal if the new members think that they can play the music used then they are sure to do for the orchestra.

Last year the orchestra held several Sunday concerts and one annual concert. This year an endeavor will be made to accomplish the same.

As to the music it can be stated that there is now access to many of the best musicians' libraries in this city. Mr. J. J. Gagner, bandmaster of the Grenadier Guards band has promised help the orchestra in any way possible, especially in the matter of music.

If any one wishes more information regarding the orchestra, will be kindly come to the reading room in the Arts Building, to-day at noon, where Philip Presner, conductor of the orchestra, will try to supply the information wanted.

Before closing, another appeal is made to all last year's members to turn out in force. Entirely new music will be used this year.

Y.W.C.A. Meeting

There will be a meeting of the Y. W. C. A. cabinet to-day (Wednesday), at 1 o'clock. Every member must be present, as very important business is to be discussed.

IDEAL HOME AND ELECTRIC SHOW

Interesting Attraction at Arena
in Aid of the Patriotic
Fund.

The Ideal Home and Electric Show, which is being staged at the Arena this week, gives one the idea of a first-class fair with the horse races omitted. This attraction, like everything else these days, has its military aspect in the way of a military exposition. There is a recruiting station right on the job, and any one who is stirred by the patriotic signs which abound and the sounds of the bagpipes can put his good resolutions into action without waiting for personal considerations to overshadow his duty.

It seems to be the idea of the management of the Home Show to kill two birds with one stone by advertising the leading local manufacturers and retail dealers as well as raising some money for the Patriotic Fund.

To the public the Home Show is a boon of incalculable value. Housewives here have an opportunity to learn how to handle eggs, preserve fruit, to get a line on the best kind of vacuum sweeper, and many other things which go to make household efficiency.

Macdonald College has an elaborate booth, consisting chiefly of maple syrup, showing the product as it is produced by the latest scientific methods as compared to the dark colored syrup put on the market years ago. There is a great variety of local firms having booths, including Dow's Brewery and the Toilet Laundry (one follows the other so far as a (censored) is concerned). Another company which is attracting much attention these days is the Natural Gas, Light, Heat & Power, Ltd. This company has three gas wells in the St. Hyacinthe district, to which it is directing public attention in the hope of increasing their capital.

This is a unique and interesting place for one to spend an evening if interested in household science, the Patriotic Fund and the spirit of the times generally.

WORK OF A BALANCE WHEEL.

The balance wheel of a large watch has a diameter of about 0.75 inch and a circumference of 2.36 inches, says an article in Prometheus. As the wheel makes five single oscillations in a second, and the amplitude of each oscillation is 15 complete revolutions, the rim travels about 18 inches in a second, one mile in an hour and 24 miles in a day. In three years of uninterrupted running, which is not unusual, the travel of the rim of the balance wheel equals or exceeds the circumference of the earth, a distance that a locomotive, running ten hours daily at a speed of 30 miles per hour, would take nearly three months to accomplish.

R.V.C. Meeting

R. V. C. Undergraduate Society.
There will be a meeting on Thursday, at 1 p.m., in the Communion Room. Business—Funds for Red Cross.

Fine--and only \$12.50

None anywhere else at the price anything like these Suits and Overcoats for Men.

Suits

Cut on lines that will appeal to men of settled tastes as well as the "nifty" models for the young man who likes a touch of swagger.

Made up in smart tweeds, mixtures, browns and greys. A group of fabrics whose appearance seem to betoken a much more expensive suit.

Winter Overcoats

Warm, dressy Ulsters, made with a belted back and your choice of shawl or notch collars. In all sizes.

Never before a finer lot of Suits and Overcoats at so low a price \$12.50
—Street Floor.

ROYAL FLYING CORPS

Many Canadians Are to Receive Commissions in Above Corps
Through C. E. F.

It was learned recently that the hundred or more men who have been accepted are to be given commissions in the Canadian Expeditionary Force, and will be sent to England and there transferred to the Royal Flying Corps. If they fail to make good as aviators, they will still be Canadian officers and subject to trench or any other duty assigned to them.

An interesting feature about the change is the fact that the Canadian Government will now, for the first time, have to bear some of the expense of getting Canadian aviators to the front. The Government recently refused to give any assistance to this branch of service. As the men will go now as Canadian officers, the Canadian Government will have to pay for their transportation. In the past this was borne by the British authorities.

PRESIDENT SUSPENDER
NONE SO EASY
MADE IN CANADA

GET LONDON PAPERS THE SAME NIGHT

Another Interesting Letter From Pte. B. W. Culyer With the McGill Hospital.

LIEUT. WALCOTT ILL

Graduate of Last Year Has Been Accompanying Hospital Ships From Dardanelles.

Pte. Bert. W. Culyer, with No. 3 (McGill) General Hospital writes as follows to his father, W. Culyer, hall porter at the McGill Union:

"Here am I at it again and nothing to write about. I see by the newspapers to-day that the British advanced another 1,000 yards yesterday, and we must have got off lightly too for we have had no convoy for four or five days. We are lucky to get the London newspapers. We get the morning papers about seven o'clock at night, when the mail boats come over. They are very often not sent out when subs. are known to be in the Channel. Just fancy ten large ships of mail every day for the British army here. I am glad that you are settled back at the Union again. All the boys wish to be remembered to you. Charlie Stewart says he could beat you at billiards with his eyes shut. Did I tell you that Lieut. George Laing came to see us a few weeks ago. He is with a R. A. M. C. Field Ambulance a few miles away. He looks fine in officer's uniform. Walcott (Lieutenant), has been backwards and forwards to the Dardanelles in a hospital ship. He is at present convalescing at Osborne Castle after an attack of dysentery contracted at the Dardanelles. Eberts is with George Laing, but I have heard nothing of the other boys.

"I had two cases of tetanus at P.M. yesterday. They were overlooked and did not get any vaccine at the dressing station. I had fifteen P.M. last week when the big rush was on. I have a nice skull for a souvenir, a German with a hole in the top large enough to get your fist into. I have been offered 100 francs for it, but I would not sell it for 500.

"Captain Dixon wished to be remembered to you, also Capt. McKim. He has been up the line for the last few days at a dressing station.

"I must away as the bugle is just going 'Cook House Door'; so I will have to hurry or my bread and jam will get cold and I really can't have a cold supper on Sunday.

CALM ATTITUDE OF DUMA.

Paris, France, Oct. 26.—The Temps, commenting on the calm attitude maintained by the Duma when the order for adjournment was announced, says that their example of patriotism has been of inestimable value to the people. To the great regret of Russia's enemies, continues the paper, the tactics of the Duma have been crowned with success.

Quiet again reigns among the working classes; in Moscow, where the strike had assumed a serious aspect, the stoppage of work only lasted a very short time. Nothing could give a better idea of the spirit of the people as a whole than the tone that has prevailed at the debates of the congresses of the unions of the Zemstvos, and of the municipalities, which have been held in Moscow. The one aim of all the delegates is to preserve peace in the interior of the country, and so bring the united efforts of the nation to bear on the successful waging of the war. The press, hostile to Russia, need entertain no hopes as to the outcome of the situation in that country. No conflict, of whatever nature, would have the results desired by the enemy. The work for the army will continue uninterrupted. The nation's representatives are watching over the interests of the army, and it goes without saying that the Government will undertake no steps contrary to the welfare of the nation.

Struck off Strength.

The following man is struck off for cause shown:
167. Brown, J., "D" Co., enlisted in the 4th University Co.

By order,
J. C. SIMPSON,
Lieutenant,
Act. Adjt., McGill Cont. C.O.T.C.

4TH COMPANY HAS ALL DAY ROUTE MARCH

Universities Unit Cooked Their Own Lunch Near Blue Bonnets.

HURRIED CALL FOR GUARD

Those on Duty at Union Turn Out at Fire Alarm.

The Fourth Universities Company started at 8.30 yesterday for what was going to be an all-day route march, which play was interrupted by the advent of the rain. Upon starting, every man was supplied with a "billy" can, and he was told to arm himself with a rifle and as much uncooked food as the "billy" or he would hold. Upon starting they marched over Westmount to the back of the mountain, where drill in extended order was practiced. When these manoeuvres were completed the company marched past Snowden Junction and took up a position west of Blue Bonnets. It being almost lunch time, arms were piled and messes were formed of four men each. These parties split off and built small fires, over which tea and coffee were cooked and the uncooked food made eatable. There were innumerable kinds of edibles, suiting the tastes of all. Some favored "flap-jacks," "bannocks" or "chappatties," while sausages, pork-chops, soup, bacon and fried potatoes or eggs and bacon were found on the camp fires of many parties. The all-famous baked beans were very much in evidence. The men showed great ingenuity in concealing and cooking the food, but up to date we have not yet heard of any casualties resulting from this diet. After lunch the fire was thoroughly extinguished and the camping place cleaned up. An alarm attack was supposed to have been delivered from the north, at which the company promptly came on the defensive. However, this did not materialize, and as it was pouring rain, the company started on its seven-mile march home, covering during the whole day a total of fourteen miles without being forced to drop one man. When the company returned, all appeared as fresh as when they started, and fit and ready if need be for another march, which was impossible, as it was already three-thirty.

During the fire in the basement of the Union, owing to the fact that there were Universities Company men stationed there, the guard was called out in a hurry, and as was their duty, they defied the flames by standing with fixed bayonets and sloped arms at the scene of operations until the firemen had thoroughly extinguished the blaze. The names of Privates A. W. Keith and V. J. Jones appeared on the strength yesterday.

The Fourth Company is now recruited fifteen men over strength. These, however, will be balanced up by the fact that ten are being taken as N.C.O.'s, while five or six are at present confined to hospital. All the men are here with the exception of six or seven, who are as yet on their way from Vancouver.

TURKISH REGIME IN SYRIA.

Paris, France, Oct. 26.—The correspondent of the Temps in Cairo states that information as to the conditions prevailing in Syria has been brought to Cairo by the refugees rescued by the American cruiser Chester. For some little time nothing more had been heard of the fate of those prominent Arabs who, on a charge of conspiracy against the Turkish regime in Syria, had been condemned by a court-martial. It is now definitely known that the sentence was carried out. The sole evidence of a conspiracy among the Arabs was based on the fact that a meeting took place at Safid between Abdel Kerim, a Lebanon Mohammedan, former president of the Arab Club in Constantinople, with the former deputy for Beirut, Niza Bey el Solh. The Turkish authorities were informed of this meeting and immediately arrested Abdel Kerim and Niza Bey, with their families.

ITALIAN WAR PRISONERS.

Rome, Oct. 26.—The committee of the Italian Red Cross attending to the needs of Italian prisoners of war has organized a practical and economical service by which money may be sent to those interned in Austria through the Banca Commerciale Italiana, and a large Swiss establishment, without the loss occasioned by changing paper money into gold. The system is the same as that already in force between Russia and Switzerland, and that it is working with great success is evidenced by the letters received by the committee from prisoners of war. The sender has merely to pay in the sum in Italian lire to one of the branch offices of the Banca Commerciale, and it is forwarded gratuitously to the committee, through whom it reaches its destination in the shortest possible time.

IT MADE A DIFFERENCE.

In the biography of Dr. Hawtreu, a famous English schoolmaster, there is a description of his unkempt appearance, with a comment which has been greatly quoted. It is said that he was scolding for being late at morning lessons some boy, who replied that he had no time to dress.

"But I can dress in time," said the doctor.

"Yes," replied the boy; "but I wash."

FISH HERON DRIVING AN AMBULANCE

Former Intercollegiate Sprinter With No. 6 Ambulance Has Interesting Story to Tell.

BILLETTED IN A CONVENT

Former Intercollegiate Sprinter With No. 6 Ambulance Has Interesting Story to Tell.

A. W. Heron, Arts '17, last year intercollegiate 100 and 220 yards champion, is now in Belgium attached to No. 6 Field Ambulance of the Second Canadian Division, and with a classmate, Leslie Roberts, is engaged in driving an ambulance conveying wounded Tommies from the firing line to the rear. He writes to N. B. Allan, Arts '17, as follows:

Belgium, Sept. 26, 1915.

"How is every little thing? I don't know what started me writing to you burly self, but everybody else is writing, so I might as well give the censor something to do to hold his job. We are on active service now—active as the very devil. We are about three or four miles back of the line, but a couple of ambulances go up pretty close every night. You'd never guess what job I've got now. I am in the mechanical transport section of a field ambulance. We have seven Studebaker sixes, but I can't tell you what I think of them, for it would never pass the censor. There are two drivers on each car. I'm a sort of assistant to my side-kick, as he is considerably more experienced than I in the gentle art of running a buzz-cart. We were up the line last night, and I thanked my lucky star that I did not have to drive. It has rained for a couple of days, and the roads aren't much good at the best. Added to this, we have to travel without any lights. Also there are ditches on either side of the road with a few holes where coal boxes have lit. Truly, this is the life.

"We are billeted at a convent, the best place we have struck for a long time. They run a canteen here for the poor soldier. Beer, 1c per glass; wine, white and red, two francs a bottle. I am getting tougher every day now. I smoke cigarettes and carry matches!

"Les. Roberts is still with me. We have been together ever since we enlisted somehow or other. He also is in the mechanical transport."

AFTERNOON DRILL

Seventy or Seventy-Five Student Recruits Turned Out on Parade.

Yesterday was held the first afternoon drill of the session for the student members of the McGill C.O.T.C. There were about seventy or seventy-five men out, and the afternoon was spent marching about at the old High School gymnasium. After the drill, Lieut. Simpson asked for a vote on the evening drill, for the second period in the week. It was decided that Thursday was possibly the best.

Captain Heward also spoke to the members of "B" Company, and urged them to turn out to their company drill as well if they could.

TRIBUTE TO RUSSIAN ARMY.

Paris, France, October 27. — The Temps' special correspondent in Bucharest quotes from the leading article published by the Independence Roumaine, in which strong appreciation of the qualities of the Russian troops is expressed. The paper says: "What nobody will deny to the Russian general staff is that stern energy characteristic of Slav mysticism, which no tragic defeats can cast down. Those legions of the Tsar — troops which have recovered from the bombardment of Gorlice, which have retraced their steps from Cracow to the Polesian marshes, which have endured so many sieges and have withstood 10 fortresses fall within a month, besides the capture of 3,000 guns, whose morale is yet intact to the extent that they fully understand the intentions of their heads who can demand anything from them—such troops prove the intense vitality of a great people."

REGISTRATION AT HARVARD.

The number of students enrolled in the faculty of Medicine at Harvard University this year is greater than during any previous year in its history. In dentistry there are 94 in the freshman class, while Medicine has 116.

THE ONLY PLACE.

"Are you married, my man?" a lady asked a sailor.

"Yes, indeed, mum — married and fourteen children."

"Poor fellow, travelling about like this! And don't you ever get homesick?"

"Only when I'm home, mum."—London Opinion.

A young surgeon received late one evening a note from three of his fellow practitioners:

"Please come over to the club and join us at a game of bridge."

"Emellie, dear," he said to his wife, "here I am called away again. It is an important case — there are three other doctors on the spot already."

Mrs. Green: "You spoke just now of social tact. Precisely just what do you mean?"

Mrs. Wyse: "By social tact I mean getting familiar with all sorts of people without letting them get familiar with you."

The Boys at the Front will be More than Pleased if you send a Gillette Safety Razor

Nothing is too good to send to the boys who are serving King and Country. But let our gifts show thought and judgment as well as good-will and love.

Among the few really acceptable gifts — smokes and pipes, chocolates and sweet biscuits, fountain pens and tooth brushes, toilet and shaving supplies — the GILLETTE SAFETY RAZOR ranks as a warm favorite, for one of the real luxuries of trench life is a clean, comfortable Gillette shave.

It's a luxury the lucky ones share with their pals, so send along PLENTY OF EXTRA BLADES. If he has a Gillette already, a few boxes of blades will go far toward

making him the most popular man in his Company.

Welcome as it is on the firing line, the GILLETTE IS EVEN MORE KEENLY APPRECIATED IN THE HOSPITALS. With it the wounded can shave themselves safely, easily and regularly. They certainly do enjoy the Gillette—and Doctors and Nurses can scarcely speak well enough of it.

Gillette "Bulldog" and Standard Sets cost \$5.00 each—compact Pocket Editions \$5.00 to \$6.00—Combination Sets, including Soap, Brush, etc., \$6.50 up. If you wish it, your Druggist, Jeweller or Hardware Dealer will arrange delivery through us, at the Front, of the Set you select, without shipping expense to you.

Gillette Safety Razor Co. of Canada, Limited

Office and Factory:

GILLETTE BLDG.,
MONTREAL.

ANTI-MILITARY LEAGUE IS FORMED

The Collegiate Anti-Militarism League, which was formed recently among the students at Columbia, Harvard, Yale and Princeton and other colleges to combat the activities of such organizations as the American Legion and the National Security League, is undertaking an investigation to discover the exact strength of the militaristic spirit among college men.

Two hundred letters are being sent to the editors of college dailies, to find their attitude towards summer training camps, military drills and lectures on military tactics. The letters say in part: "An agitation for military service has been started by the National Security League. It is our belief that such movement is unnecessary and to the highest degree vicious. Its advocates may declare they are opposed to militarism yet they are really fostering its spread. The proposal strikes at college men very close to home. We desire to get your opinion on this subject as we wish to publish a symposium of student opinion on military camps, drills and lectures."

Eight hundred letters are being sent to instructors and professors in colleges and Universities to gauge creased armaments and a larger army, their personal inclinations as to increased among college students. Blank are also being sent to four hundred colleges, including every state in the Union, for the purpose of obtaining an actual poll of the students themselves. Each institution is provided with a list of questions to be submitted to individuals.

The Collegiate Anti-Militarism League professes a belief that the trend of undergraduate thought is against the growth of militarism, and will publish the returns as an answer to the arguments of the American Legion and the National Security League. The officers of the League are Karl G. Karsten, President, Columbia; Arthur Fisher, Vice-President, Harvard; John Temple Graves, Jr., Secretary, Princeton; A. L. Trachtenberg, Treasurer, Yale.

MUSICAL TASTE.

Sir Frederick Bridge, the organist of Westminster Abbey, tells some excellent stories.

"Two ladies," he once said, "were in Westminster Abbey, when one of them suddenly raised her hand. 'Hush! Listen!' she said. 'There's the organ. Isn't it splendid? I always love to hear it.' 'Beautiful, dear,' replied the other; 'for a moment I thought it was Sir Walter Parratt, but of course he can't play like that! One can usually distinguish them by their touch.'"

"As a matter of fact," says Sir Frederick, "it was the vacuum cleaner buzzing away in preparation for the Coronation."

THE FATAL DAY WAS NEAR.

"Charles seems to be very exacting," said a fond mamma to the dear girl who was dressing for the wedding.

"Never mind, mamma," said she sweetly. "They are his last wishes."

THE DIFFERENCE.

"What is the difference between a philosopher and an optimist?"

"Well, a philosopher takes things as they come, while an optimist, if they come with the dark side uppermost, turns them over."—Boston Transcript.

ADDRESSING OF MAIL

In order to facilitate the handling of mail at the front and to insure prompt delivery it is requested that all mail be addressed as follows:—

- (a) Regimental Number.....
- (b) Rank.....
- (c) Name.....
- (d) Squadron, Battery or Company.....
- (e) Battalion, Regiment, (or other unit) Staff appointment or Department.....
- (f) CANADIAN CONTINGENT.....
- (g) British Expeditionary Force.....
- (h) Army Post Office, LONDON, England.....

Unnecessary mention of higher formations, such as brigades, divisions, is strictly forbidden, and causes delay.

GRADUATE IS ENGAGED.

The engagement is announced of Enid Ruth, daughter of the late Mr. O. Leger, to Dr. H. G. Massiah, M.D., '15, son of Dr. Hallam Massiah, of Barbadoes. The marriage will take place quietly the first week in November.

NO MORE FREE BEER.

Because of backwardness in temperance matters, Princeton has been the object of considerable criticism. Therefore the movement to abandon the custom of serving free beer at University functions is hailed with approval by the student-body and the public. President Hibben says that Princeton must not be allowed to fall behind in the most conspicuous movement of the age in which we live.

MEAN.

"How do you like my suit?"

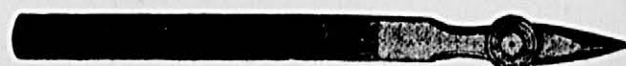

"Great! It looks like it was made for you."

THE IMPERIAL.

Graustark, the splendid Essanay production in six parts, will be shown on Thursday, Friday and Saturday. This is entirely a play with a punch, great scenes and thrilling situations. The hero offers to lay down his life for the woman he loves. The story, no doubt, you have read, by George Barr McCutcheon, is gripping and offers unlimited opportunities to the screen artists, and they have made the most of it.

From the moment that Lorry meets the Princess until the wedding scene at the finish, the play is full of action, thrills and romance.

You want to see and enjoy "Graustark."

USE OF CREAM IN GERMANY.

Berlin, Oct. 26.—Owing to the scarcity of milk, and consequently of butter, bakers have been forbidden by the federal council to employ unskimmed milk in the making of cakes and pastries, while confectioners are no longer allowed to serve out cream to their customers. No restriction has been placed upon the use of milk and cream in private houses.

SENIORS WIN AN EASY GAME BY BIG SCORE

The Science Sophomores Were Outplayed by '16 Men at All Stages.

SEVERAL LONG RUNS MADE

Woolatt and Roseborough Were the Star Players For Science '16.

Science '16 played their first game of the season at the Stadium, yesterday. The victims were Science '18 who were completely snowed under owing to the superior weight on the '16 line, and the Senior fake plays. For the seniors Woolatt and Roseborough were the best, and Way and Smith showed signs of life at times for the Sophs.

The Sophs won the toss and chose the wind. The seniors kicked off. Smith kicked into his scrimmage and '16 score a rouge after one minute of play. Score, 1-0 for '16. On the kick off '18 retained the ball; on the first down Smith again kicked into his scrim, and '16 got the ball on '18 five yard line. On the first down Woolatt went over for a touch. Score, 6-0. On the kick off Wilson caught the ball and tore off a 35 yard run. Woolatt went over on the next down for a try. Score, 11-0. The Sophs again kicked off. "Bill" Kelly got the ball and ran it back to the Sophs, 30 yard line. Quarter time was now called, the score being 11-0.

On the first down Rosie went over for a touch, which Woolatt converted. Score 17-0. The seniors are playing rings around the Sophs, who seem unable to stop the seniors' attack. On the kick off Sears ran the ball 40 yards. On the first down Crutch, the Science giant gained 15 yards on a buck; on the next down Woolatt went over for a touch. Score, 22-0. The Science '16 "Royal Routers" now made their presence felt and shattered the echoes of the Science yell. This seemed to put new life into the team and Rosie immediately kicked a rouge. Score, 23-0. On the next play Woolatt kicked a rouge. Score, 24-0. Before another minute had elapsed Woolatt kicked a dead line. Score, 25-0. The Sophs lost their ball on their first down and MacLachin went over for a touch. Score, 30-0. Half time was now called.

Williscroft now went on for '16 and Nelson was changed over to '18. On the Sophs' first down Sears intercepted a pass and the ball was the first senior on the Sophs, 2 yard line. They lost the ball on the next play owing to a forward pass. The Sophs, lost the ball on their next down and on the seniors third down Rosie went over for a touch. Score, 35-0.

Brown went through the Sophs' line on the next play for 30 yards, on the next down. Rosie again went over for a touch, making his third thus far in the game. Score, 40-0. Loose play on the part of the seniors resulted in Park picking up the loose ball and going over for a try. The first, last, and only score of the Sophs. Three quarter time was now called, the score being 40-5.

Williscroft was forced to stop having injured his knee, but the "Royal Router" cheered the team which compensated them for the loss of this star. On the kick off Bill Kelly grabbed the ball and tore off a 40 yard run. Woolatt went over for a touch on the first down. Score, 45-5. The Sophs got the ball on their 40 yard line, but they lost the ball and Crutchfield went over for a touch which Woolatt converted. Score, 51-5. On the kick off Rounthwaite went over for a try. Score, 56-5. Time was then called.

Science '16.
 Sears Back Smith
 Ferguson Back Neilson
 Woolatt Quarter Way
 Roseborough, Plying Wing
 Wilkins Outside Wing Bone

SOCCER PRACTICE

Team Will Be Chosen For Game With Macdonald College.

The soccer team will hold a practice on Fletcher's Field, near Mount Royal, to-day, at 4.15 P.M. It is imperative that every man on the squad should be in uniform as the team for the Macdonald game is to be picked.

BIG GAME POSTPONED

Science '16 and Science '17 Will Meet Next Friday Afternoon.

The class football game between Science '16 and '17 has been postponed until Friday, the 29th, at 4 p.m., at the Stadium.

FRESHMEN ATTENTION.

There will be no physical examinations held this afternoon. To-morrow at 4 p.m., the Arts and Science freshmen whose surnames begin with Q, R, and S, must present themselves. Friday, Oct. 29th, is the last day it will be possible for freshmen to obtain a physical examination, and those whose surnames begin with T or any other letter to the end of the alphabet must put in an appearance.

After Friday next, those freshmen who have not been through a physical examination given by the University medical officers are liable to suspension from the University.

HARRIERS WILL TURN OUT FOR THE FIRST RUN

Annual Inter-Faculty Run to be Held Second Week in November.

LEAVE STADIUM AT 5.15

Many New Men Expected to be Showing Up.

The Harriers will hold their first run of the season this afternoon at 5.15. It is the intention to hold these runs on Mondays, Wednesdays and Fridays at the same hour. If there are any who cannot turn out at this hour then one of the runs might be arranged for the evening. The run this afternoon will only be a short distance as it will be the first appearance of several of the men at running this fall. Any men interested in this kind of sport should get busy in their faculties and arrange their teams. Bill Antiloff, one of the star performers on Sports' Day, is captain this year. Those who would like to know any particulars about the annual cross country run to be held the second week in November should communicate with Bill, or with the President, W. H. Gerrie. The runners will meet at the dressing rooms at the Stadium as soon after 5 o'clock as possible from where the start will be made. A "rubber" will be on hand to give the boys a rub down after the run. All those who have ever been out before and those who would like to have a try at the game are requested to come out this afternoon.

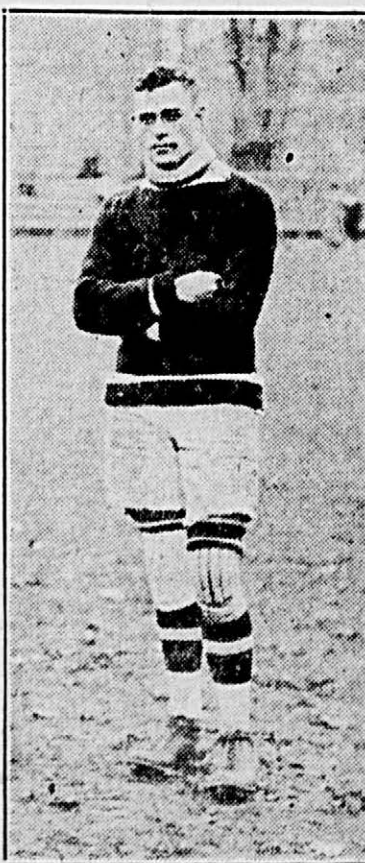

HOCKEY STARS HERE.

The Ottawa college hockey team of last year, which was so successful in the eventful American tour, has been badly disrupted. Ed. Nagle and Jack Grimes have left college and are free lances in Ottawa. Madden and Heney are now at McGill and will probably figure on the red and white seven. Bill Doran, the goalkeeper, is at St. Francis Xavier, Antigonish. "Teddy" Behan, the speedy wing man, has taken a position in the military camp at Petawawa. Red Quain is the only one of the original team left.

SCIENCE '16 PRACTICE.

Will the members of the above team please report on the East Campus to-day at 4.30. No uniforms are required.

He Starred

HERRIE WOOLATT, who starred for the seniors in yesterday's clash between Science '16 and Science '18.

WILLIAMS TOO MUCH FOR THE R. M. C. CADETS

Army Team From Barriefield Defeats Cadets By Score of 16-2.

HEAVY LINE A FACTOR

R. M. C. Team, Although Light, Showed Speed and Aggressiveness.

Outweighed by a large margin, but far from being outshone so far as variety of attack was concerned, the light R.M.C. went down to a 16 to 2 defeat at the hands of the Army on Queen's field on Saturday in the second battle of the Kingston City League series. The winners secured one touchdown through a costly fumble, while another was registered when Gates kicked into his own scrimmage. The latter could be attributed to a weakness of his own line rather than a piece of ill-luck, as the Army heavies were breaking through and blocking kicks throughout the entire afternoon. The best team won; of that there is no doubt, but the R.M.C. boys were better than the score showed and kept their heavier opponents hustling at all times.

It was a nice game of football played under ideal gridiron conditions. The play was open and both teams displayed a liking for clean rugby, and although a few of the gladiators were laid low and there was some scraggling and holding on the line, there was a decided absence of dirty tactics much to the satisfaction of the fair-sized attendance.

The cadets were as midges beside their opponents, the difference in weight being very noticeable in the scrimmage and at the inside and middle positions. The little fellows showed a dash that was surprising, however, and varied their play with even greater effectiveness than the soldiers, only to be worn down in the third quarter when the back-field crumpled up under the strain for the moment and allowed the Army to roll up eleven points and place the game on ice.

Dibble on the Line.

On the wing line the Army showed very good bucking ability which lacked its real effectiveness because the work was of a purely individual effort, for very seldom was the man with the ball given any support. Dibble, the gigantic sculler, was used on numerous occasions, and did very good work, as did Jamieson, Skey and Shaw, the latter showing up in good style. Reid in the scrimmage was also a tower of strength. Lepper at right outside shaped up like a real good player. Not only did he tackle well, but he proved himself a ball carrier of speed and power. Gamey Stratton at quarter fed the backs well and handled the signals in good style, but was inclined to take too much of the work upon himself.

On the back division Jack Williams was the brilliant light of either team, and was easily the most effective man on the field. He ran with his old-time trickery, used rare judgment in his punts and displayed the generalship that made him one of the most dangerous men who ever donned togs in the palmy days of the Big Four. Smith at left half shaped up very well also. He ran back punts in clever style, caught well and carried the ball for numerous gains, while Wright also played a strong game.

Jack Hazlett Referee.

Jack Hazlett was referee and Prof. McDonald umpire, and both gave entire satisfaction, although they tolerated considerable interference by both teams. The line-up was:

Army—Batten, flying wing; Smith, Williams and Wright, backs; Stratton, quarter; Johnston, Reid and Webster, scrimmage; Gregory and Shaw, insides; Dibble (Skey) and Jamieson (Cook), middles; Lepper and Mallard, outsides.

R. M. C.—Cassels, flying wing; McCarter, Gates and McLaren, backs; Ferrie, quarter; Wood, Cushing and Robertson, scrimmage; Saunders (Walbank) and Hogg, insides; Hay and O'Reilly (Vrooman), middles; Price (Brown) and Savage, outsides.

Both teams sported new regalias, the Army wearing a blue sweater with white emblem and the Cadets wearing a red and white suit, which was very striking, one arm being of red and the other of white, with a division of the colors on the sweater.

University of Toronto juniors assumed a big lead in the qualifying round for the finals at St. Thomas Saturday when they beat St. Thomas Collegiate Institute junior O. R. F. U. team 54 to 0. The visitors outclassed the Railroad lads in every department of the game, especially in kicking, in which Carrel, Garret and E. Douglas scored seven in the first quarter, sixteen in the second, seventeen in the third, and fourteen in the final.

SCIENCE '17 FOOTBALL.

A signal practice for all members of the Science '17 Football Team will be held this afternoon.

The men will meet in the Common Room of the Engineering Building, at 4.30 p.m. No uniforms are required, so there is little excuse for the men not turning out. It is urgent that all men who can should do so as the game to decide the Science Faculty Championship will be played on Friday.

NEWS of the STUDENT SOLDIERS

CERTIFICATE A. EXAMINATIONS COMING SOON

Special Examination to be Held Late in November or Early in December.

MUST HAND NAMES IN

Further List of Enlistments and Transfers is Announced in C. O. T. C. Orders.

BATTALION ORDERS No. 16,

by
LIEUT.-COLONEL ROBERT STARKE,
O.C. McGill Cont., C.O.T.C.

Montreal, Oct. 26, 1915.

1. Special Examination, Certificate A.
A special examination for those men who failed at the examination held in the spring for Certificate "A" will be held about the end of November or the beginning of December.

Men who intend to go up for this examination should hand in their names to Major McKergow as soon as possible.

By order,
J. C. SIMPSON,
Lieutenant,
Act. Adj., McGill Cont., C.O.T.C.

BATTALION ORDERS No. 16,

by
LIEUT.-COLONEL ROBERT STARKE,
O.C. McGill Cont., C.O.T.C.

PART II.

Station, Montreal;
Date, Oct. 26, 1915.

2. Transfers.

The following men have been transferred, as shown:

- 119. Saye, C. H., from D to B Co.
- 116. Smith, P. L., from A to Scouts
- 150. Macdonald, J., from A to D Co.
- 95. Collier, H. C., from B to D Co.
- 218. Lowe, H. R., from A to D Co.
- 337. Harris, H. K., from A to Scouts
- 309. Hinton, A. H., from A to B Co.
- 351. Locke, J. R., from D to C Co.
- 352. Stillwell, L. H., from D to C Co.
- 320. McLean, D., from A to D Co.
- 334. Tait, J. J., from D to B Co.
- 223. Barnes, K. S., from C to B Co.
- 217. Malone, W. G. P., from A to B Co.

3 Taken on Strength.

GET LONDON PAPERS THE SAME NIGHT

Another Interesting Letter From Pte. B. W. Culyer With the McGill Hospital.

LIEUT. WALCOTT ILL

Graduate of Last Year Has Been Accompanying Hospital Ships From Dardanelles.

Pte. Bert. W. Culyer, with No. 3 (McGill) General Hospital writes as follows to his father, W. Culyer, hall porter at the McGill Union:

"Here am I at it again and nothing to write about. I see by the newspapers that the British advanced another 1,000 yards yesterday, and we must have got off lightly too for we have had no convoy for four or five days. We are lucky able to get the London newspapers. We get the morning papers about seven o'clock at night, when the mail boats come over. They are very often not sent out when subs. are known to be in the Channel. Just fancy ten large ships of mail every day for the British army here. I am glad that you are settled back at the Union again. All the boys wish to be remembered to you. Charlie Stewart says he could beat you at billiards with his eyes shut. Did I tell you that Lieut. George Laing came to see us a few weeks ago. He is with a R. A. M. C. Field Ambulance a few miles away. He looks fine in officer's uniform. Walcott (Lieutenant), has been backwards and forwards to the Dardanelles in a hospital ship. He is at present convalescing at Osborne Castle after an attack of dysentery contracted at the Dardanelles. Eberts is with George Laing, but I have heard nothing of the other boys.

"I had two cases of tetanus at P.M. yesterday. They were overlooked and did not get any vaccine at the dressing station. I had fifteen P.M. last week when the big rush was on. I have a nice skull for a souvenir, a German with a hole in the top large enough to get your fist into. I have been offered 100 francs for it, but I would not sell it for 500.

"Captain Dixon wished to be remembered to you, also Capt. McKim. He has been up the line for the last few days at a dressing station.

"I must away as the bugle is just going 'Cook House Door'; so I will have to hurry or my bread and jam will get cold and I really can't have a cold supper on Sunday.

CALM ATTITUDE OF DUMA.

Paris, France, Oct. 26.—The Temps, commenting on the calm attitude maintained by the Duma when the order for adjournment was announced, says that their example of patriotism has been of inestimable value to the people. To the great regret of Russia's enemies, continues the paper, the tactics of the Duma have been crowned with success.

Quiet again reigns among the working classes; in Moscow, where the strike had assumed a serious aspect, the stoppage of work only lasted a very short time. Nothing could give a better idea of the spirit of the people as a whole than the tone that has prevailed at the debates of the congresses of the unions of the Zemstvos, and of the municipalities, which have been held in Moscow. The one aim of all the delegates is to preserve peace in the interior of the country, and so bring the united efforts of the nation to bear on the successful waging of the war. The press, hostile to Russia, need entertain no hopes as to the outcome of the situation in that country. No conflict, of whatever nature, would have the results desired by the enemy. The work for the army will continue uninterrupted. The nation's representatives are watching over the interests of the army, and it goes without saying that the Government will undertake no steps contrary to the welfare of the nation.

4TH COMPANY HAS ALL DAY ROUTE MARCH

Universities Unit Cooked Their Own Lunch Near Blue Bonnets.

HURRIED CALL FOR GUARD

Those on Duty at Union Turn Out at Fire Alarm.

The Fourth Universities Company started at 8.30 yesterday for what was going to be an all-day route march, which play was interrupted by the advent of the rain. Upon starting, every man was supplied with a "billy" can, and he was told to arm himself with a rifle and as much uncooked food as the "billy" or he would hold. Upon starting they marched over Westmount to the back of the mountain, where drill in extended order was practised. When these manoeuvres were completed the company marched past Snowdon Junction and took up a position west of Blue Bonnets. It being almost lunch time, arms were piled and messes were formed of four men each. These parties split off and built small fires, over which tea and coffee were cooked and the uncooked food made eatable. There were innumerable kinds of edibles, suiting the tastes of all. Some favored "flap-jacks," "bannocks" or "chappatties," while sausages, pork-chops, soup, bacon and fried potatoes or eggs and bacon were found on the camp fires of many parties. The all-famous baked beans were very much in evidence. The men showed great ingenuity in concealing and cooking the food, but up to date we have not yet heard of any casualties resulting from this diet. After lunch the fires were thoroughly extinguished and the camping place cleaned up. An alarm attack was supposed to have been delivered from the north, at which the company promptly came on the defensive. However, this did not materialize, and as it was pouring rain, the company started on its seven-mile march home, covering during the whole day a total of fourteen miles without being forced to drop one man. When the company returned, all appeared as fresh as when they started, and fit and ready if need be for another march, which was impossible, as it was already three-thirty.

During the fire in the basement of the Union, owing to the fact that there were Universities Company men stationed there, the guard was called out in a hurry, and as was their duty, they defied the flames by standing with fixed bayonets and sloped arms at the scene of operations until the firemen had thoroughly extinguished the blaze. The names of Privates A. W. Keith and V. J. Jones appeared on the strength yesterday.

The Fourth Company is now recruited fifteen men over strength. These, however, will be balanced up by the fact that ten are being taken as N.C.O.'s, while five or six are at present confined to hospital. All the men are here with the exception of six or seven, who are as yet on their way from Vancouver.

A squad of 25 men will go to the ranges to-day, where they will get instruction and practice both in the machine gun firing and rifle range shooting, at both 200 and 500 yards distance.

TURKISH REGIME IN SYRIA.

Paris, France, Oct. 26.—The correspondent of the Temps in Cairo states that information as to the conditions prevailing in Syria has been brought to Cairo by the refugees rescued by the American cruiser Chester. For a little time nothing more had been heard of the fate of those prominent Arabs who on a charge of conspiracy against the Turkish regime in Syria, had been condemned by a court-martial. It has now definitely known that the sentence was carried out. The sole evidence of a conspiracy among the Arabs was based on the fact that a meeting took place at Safra between Abdel Kerim, a Lebanon Mohammedan, former president of the Arab Club in Constantinople, with the former deputy for Beirut, Niza Bey el Solh. The Turkish authorities were informed of this meeting and immediately arrested Abdel Kerim and Niza Bey, with their families.

ITALIAN WAR PRISONERS.

Rome, Oct. 26.—The committee of the Italian Red Cross attending to the needs of Italian prisoners of war has organized a practical and economical service by which money may be sent to those interned in Austria through the Banca Commerciale Italiana, and a large Swiss establishment, without the loss occasioned by changing paper money into gold. The system is the same as that already in force between Russia and Switzerland, and that it is working with great success is evidenced by the letters received by the committee from prisoners of war. The sender has merely to pay in the sum in Italian lire to one of the branch offices of the Banca Commerciale, and it is forwarded gratuitously to the committee, through whom it reaches its destination in the shortest possible time.

IT MADE A DIFFERENCE.

In the biography of Dr. Hawtree, a famous English schoolmaster, there is a description of his unkempt appearance, with a comment which has been greatly quoted. It is said that he was scolding for being late at morning lessons some boy, who replied that he had no time to dress.
"But I can dress in time," said the doctor.
"Yes," replied the boy; "but I wash."

FISH HERON DRIVING AN AMBULANCE

Former Intercollegiate Sprinter With No. 6 Ambulance Has Interesting Story to Tell.

BILLETTED IN A CONVENT

Former Intercollegiate Sprinter With No. 6 Ambulance Has Interesting Story to Tell.

A. W. Heron, Arts '17, last year intercollegiate 100 and 220 yards champion, is now in Belgium attached to No. 6 Field Ambulance of the Second Canadian Division, and with a classmate, Leslie Roberts, is engaged in driving an ambulance conveying wounded Tommies from the firing line to the rear. He writes to N. B. Allan, Arts '17, as follows:

Belgium, Sept. 26, 1915.
"How is every little thing? I don't know what started me writing to you burly self, but everybody else is writing, so I might as well give the censor something to do to hold his job. We are on active service now—active as the very devil. We are about three or four miles back of the line, but a couple of ambulances go up pretty close every night. You'd never guess what job I've got now. I am in the mechanical transport section of a field ambulance. We have seven Studebaker sixes, but I can't tell you what I think of them, for it would never pass the censor. There are two drivers on each car. I'm a sort of assistant to my side-kick, as he is considerably more experienced than I in the gentle art of running a buzz-cart. We were up the line last night, and I thanked my lucky star that I did not have to drive. It has rained for a couple of days, and the roads aren't much good at the best. Added to this, we have to travel without any lights. Also there are ditches on either side of the road with a few holes where coal boxes have lit. Truly, this is the life.

"We are billeted at a convent, the best place we have struck for a long time. They run a canteen here for the poor soldier. Beer, 1c per glass; wine, white and red, two francs a bottle. I am getting tougher every day now. I smoke cigarettes and carry matches!

"Les, Roberts is still with me. We have been together ever since we enlisted somehow or other. He also is in the mechanical transport."

AFTERNOON DRILL

Seventy or Seventy-Five Student Recruits Turned Out on Parade.

Yesterday was held the first afternoon drill of the session for the student members of the McGill C.O.T.C. There were about seventy or seventy-five men out, and the afternoon was spent marching about at the old High School gymnasium. After the drill, Lieut. Simpson asked for a vote on the evening drill, for the second period in the week. It was decided that Thursday was possibly the best.

Captain Heward also spoke to the members of "B" Company, and urged them to turn out to their company drill as well if they could.

TRIBUTE TO RUSSIAN ARMY.

Paris, France, October 27. — The Temps' special correspondent in Bucharest quotes from the leading article published by the Independence Roumaine, in which strong appreciation of the qualities of the Russian troops is expressed. The paper says: "What nobody will deny to the Russian general staff is that stern energy characterized by Slav mysticism, which no tragic defeat can cast down. Those legions of the Tsar — troops which have recovered from the bombardment of Gorlice, which have retraced their steps from Cracow to the Polesian marshes, which have endured so many sieges and have witnessed 10 fortress fall within a month, besides the capture of 3,000 guns, whose morale is yet intact to the extent that they fully understand the intentions of their heads who can demand anything from them, — such troops prove the intense vitality of a great people."

REGISTRATION AT HARVARD.

The number of students enrolled in the faculty of Medicine at Harvard University this year is greater than during any previous year in its history. In dentistry there are 94 in the freshman class, while Medicine has 116.

THE ONLY PLACE.

"Are you married, my man?" a lady asked a sailor.
"Yes, indeed, mum — married and fourteen children."
"Poor fellow, travelling about like this! And don't you ever get homesick?"
"Only when I'm home, mum." — London Opinion.

A young surgeon received late one evening a note from three of his fellow practitioners:
"Please come over to the club and join us at a game of bridge."
"Emmie, dear," he said to his wife, "here I am called away again. It is an important case — there are three other doctors on the spot already."

Mrs. Green: "You spoke just now of social fact. Precisely just what do you mean?"
Mrs. Wyse: "By social fact I mean getting familiar with all sorts of people without letting them get familiar with you."

The Boys at the Front will be More than Pleased if you send a Gillette Safety Razor

Nothing is too good to send to the boys who are serving King and Country. But let our gifts show thought and judgment as well as good-will and love.

Among the few really acceptable gifts — smokes and pipes, chocolates and sweet biscuits, fountain pens and tooth brushes, toilet and shaving supplies — the GILLETTE SAFETY RAZOR ranks as a warm favorite, for one of the real luxuries of trench life is a clean, comfortable Gillette shave.

It's a luxury the lucky ones share with their pals, so send along PLENTY OF EXTRA BLADES. If he has a Gillette already, a few boxes of blades will go far toward

making him the most popular man in his Company.

Welcome as it is on the firing line, the GILLETTE IS EVEN MORE KEENLY APPRECIATED IN THE HOSPITALS. With it the wounded can shave themselves safely, easily and regularly. They certainly do enjoy the Gillette — and Doctors and Nurses can scarcely speak well enough of it.

Gillette "Bulldog" and Standard Sets cost \$5.00 each — compact Pocket Editions \$5.00 to \$6.00 — Combination Sets, including Soap, Brush, etc., \$8.50 up. If you wish it, your Druggist, Jeweller or Hardware Dealer will arrange delivery through us, at the Front, of the Set you select, without shipping expense to you.

Gillette Safety Razor Co. of Canada, Limited

Office and Factory:

GILLETTE BLDG., MONTREAL.

ANTI-MILITARY LEAGUE IS FORMED

The Collegiate Anti-Militarism League, which was formed recently among the students at Columbia, Harvard, Yale and Princeton and other colleges to combat the activities of such organizations as the American Legion and the National Security League, is undertaking an investigation to discover the exact strength of the militaristic spirit among college men.

Two hundred letters are being sent to the editors of college dailies, to find their attitude towards summer training camps, military drills and lectures on military tactics. The letters say in part: "An agitation for military service has been started by the National Security League. It is our belief that such movement is unnecessary and to the highest degree vicious. Its advocates may declare they are opposed to militarism yet they are really fostering its spread. The proposal strikes at college men very close to home. We desire to get your opinion on this subject as we wish to publish a symposium of student opinion on military camps, drills and lectures."

Eight hundred letters are being sent to instructors and professors in colleges and Universities to gauge creased armaments and a larger army, their personal inclinations as to increased military training of college students. Blanks are also being sent to four hundred colleges, including every state in the Union, for the purpose of obtaining an actual poll of the students themselves. Each institution is provided with a list of questions to be submitted to individuals.

The Collegiate Anti-Militarism League professes a belief that the trend of undergraduate thought is against the growth of militarism, and will publish the returns as an avers to the arguments of the American Legion and the National Security League. The officers of the League are: Karl G. Karsten, President, Columbia; Arthur Fisher, Vice-President, Harvard; John Temple Graves, Jr., Secretary, Princeton; A. L. Trachtenberg, Treasurer, Yale.

MUSICAL TASTE.

Sir Frederick Bridge, the organist of Westminster Abbey, tells some excellent stories.

"Two ladies," he once said, "were in Westminster Abbey, when one of them suddenly raised her hand. 'Hush! Listen!' she said. 'There's the organ. Isn't it splendid? I always love to hear it.' 'Beautiful, dear,' replied the other; 'for a moment I thought it was Sir Walter Parratt, but of course he can't play like that! One can usually distinguish them by their touch.'"

"As a matter of fact," says Sir Frederick, "it was the vacuum cleaner buzzing away in preparation for the Coronation."

THE FATAL DAY WAS NEAR.

"Charles seems to be very exacting," said a fond mamma to the dear girl who was dressing for the wedding.

"Never mind, mamma," said she sweetly. "They are his last wishes."

THE DIFFERENCE.

"What is the difference between a philosopher and an optimist?"
"Well, a philosopher takes things as they come, while an optimist, if they come with the dark side uppermost, turns them over." — Boston Transcript.

ADDRESSING OF MAIL

In order to facilitate the handling of mail at the front and to insure prompt delivery it is requested that all mail be addressed as follows:—

- (a) Regimental Number.....
- (b) Rank.....
- (c) Name.....
- (d) Squadron, Battery or Company.....
- (e) Battalion, Regiment, (or other unit) Staff appointment or Department.....
- (f) CANADIAN CONTINGENT.....
- (g) British Expeditionary Force.....
- (h) Army Post Office, LONDON, England.....

Unnecessary mention of higher formations, such as brigades, divisions, is strictly forbidden, and causes delay.

GRADUATE IS ENGAGED.

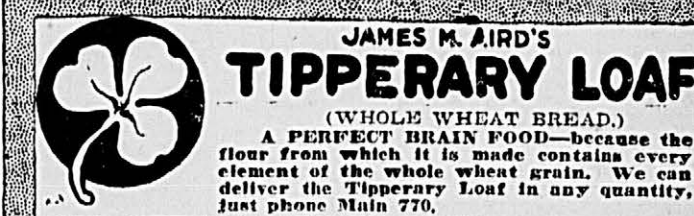

The engagement is announced of Enid Ruth, daughter of the late Mr. O. Leger, to Dr. H. G. Massiah, Med. '15, son of Dr. Hallam Massiah, of Barbadoes. The marriage will take place quietly the first week in November.

MEAN.

"How do you like my suit?"
"Great! It looks like it was made for you."

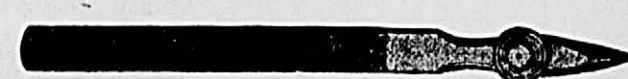

NO MORE FREE BEER.

Because of backwardness in temperance matters, Princeton has been the object of considerable criticism. Therefore the movement to abandon the custom of serving free beer at University functions is hailed with approval by the student-body and the public. President Hildreth says that Princeton must not be allowed to fall behind in the most conspicuous movement of the age in which we live.

THE IMPERIAL.

Graustark, the splendid Essanay production in six parts, will be shown on Thursday, Friday and Saturday. This is entirely a play with a punch, great scenes and thrilling situations. The hero offers to lay down his life for the woman he loves. The story, no doubt, you have read, by George Barr McCutcheon, is gripping and offers unlimited opportunities to the screen artists, and they have made the most of it.

From the moment that Lorry meets the Princess until the wedding scene at the finish, the play is full of action, thrills and romance.

You want to see and enjoy "Graustark."

USE OF CREAM IN GERMANY.

Berlin, Oct. 26.—Owing to the scarcity of milk, and consequently of butter, bakers have been forbidden by the federal council to employ unskimmed milk in the making of cakes and pastries, while confectioners are no longer allowed to serve out cream to their customers. No restriction has been placed upon the use of milk and cream in private houses.

SENIORS WIN AN EASY GAME BY BIG SCORE

The Science Sophomores Were Outplayed by '16 Men at All Stages.

SEVERAL LONG RUNS MADE

Woolatt and Roseborough Were the Star Players For Science '16.

Science '16 played their first game of the season at the Stadium, yesterday. The victims were Science '18 who were completely snowed under owing to the superior weight on the '16 line, and the Senior fake plays. For the seniors Woolatt and Roseborough were the best, and Way and Smith showed signs of life at times for the Sophs.

The Sophs won the toss and chose the wind. The seniors kicked off. Smith kicked into his scrimmage and '16 score a rouge after one minute of play. Score, 1-0 for '16. On the kick off '18 retained the ball; on the first down Smith again kicked into his scrim, and '16 got the ball on '18 five yard line. On the first down Woolatt went over for a touch. Score, 6-0. On the kick off Wilson caught the ball and tore off a 35 yard run. Woolatt went over on the next down for a try. Score, 11-0. The Sophs again kicked off. "Bill" Kelly got the ball and ran it back to the Sophs, 30 yard line. Quarter time was now called, the score being 11-0.

On the first down Rosie went over for a touch, which Woolatt converted. Score, 17-0. The seniors are playing rings around the Sophs, who seem unable to stop the seniors' attack. On the kick off Sears ran the ball 40 yards. On the first down Crutch, the Science giant gained 15 yards on a buck; on the next down Woolatt went over for a touch. Score, 22-0. The Science '16 "Royal Rooters" now made their presence felt and shattered the echoes with the Science yell. This seemed to put new life into the team and Rosie immediately kicked a rouge. Score, 23-0. On the next play Woolatt kicked a rouge. Score, 24-0. Before another minute had elapsed Woolatt kicked a dead line. Score, 25-0. The Sophs lost their ball on their first down and MacLachin went over for a touch. Score, 30-0. Half time was now called.

Williscroft now went on for '16 and Neilson was changed over to '18. On the Sophs, first down Sears intercepted a pass and the ball was the first senior on the Sophs, 2 yard line. They lost the ball on the next play owing to a forward pass. The Sophs lost the ball on their next down and on the seniors third down Rosie went over for a touch. Score, 35-0.

Brown went through the Sophs line on the next play for 20 yards, on the next down. Rosie again went over for a touch, making his third thus far in the game. Score, 40-0. Loose play on the part of the seniors resulted in Park picking up the loose ball and going over for a try. The first, last, and only score of the Sophs. Three quarter time was now called, the score being 40-5.

Williscroft was forced to stop having injured his knee, but the "Royal Rooters" cheered the team which compensated them for the loss of this star. On the kick off Bill Kelly grabbed the ball and tore off a 40 yard run. Woolatt went over for a touch on the first down. Score, 45-5. The Sophs got the ball on their 40 yard line, but they lost the ball and Crutchfield went over for a touch which Woolatt converted. Score, 51-5. On the kick off Rounthwaite went over for a try. Score, 56-5. Time was then called.

SOCCER PRACTICE

Team Will Be Chosen For Game With Macdonald College.

The soccer team will hold a practice on Fletcher's Field, near Mount Royal, to-day, at 4:15 P.M. It is imperative that every man on the squad should be in uniform as the team for the Macdonald game is to be picked.

BIG GAME POSTPONED

Science '16 and Science '17 Will Meet Next Friday Afternoon.

The class football game between Science '16 and '17 has been postponed until Friday, the 29th, at 4 p.m., on the Stadium.

FRESHMEN ATTENTION.

There will be no physical examinations held this afternoon. To-morrow at 4 p.m., the Arts and Science freshmen whose surnames begin with Q. R. and S. must present themselves. Friday, Oct. 29th, is the last day it will be possible for freshmen to obtain a physical examination, and those whose surnames begin with T or any other letter to the end of the alphabet must put in an appearance.

After Friday next, those freshmen who have not been through a physical examination given by the University medical officers are liable to suspension from the University.

HARRIERS WILL TURN OUT FOR THE FIRST RUN

Annual Inter-Faculty Run to be Held Second Week in November.

LEAVE STADIUM AT 5.15

Many New Men Expected to be Showing Up.

The Harriers will hold their first run of the season this afternoon at 5.15. It is the intention to hold these runs on Mondays, Wednesdays and Fridays at the same hour. If there are any who cannot turn out at this hour then one of the runs might be arranged for the evening. The run this afternoon will only be a short distance as it will be the first appearance of several of the men at running this fall. Any men interested in this kind of sport should get busy in their faculties and arrange their teams. Bill Antiloff, one of the star performers on Sport's Day, is captain this year. Those who would like to know any particulars about the annual cross country run to be held the second week in November should communicate with Bill, or with the President, W. H. Gerrie. The runners will meet at the dressing rooms at the Stadium as soon after 5 o'clock as possible from where the start will be made. A "rubber" will be on hand to give the boys a rub down after the run. All those who have ever been out before and those who would like to have a try at the game are requested to come out this afternoon.

HOCKEY STARS HERE.

The Ottawa college hockey team of last year, which was so successful in the eventful American tour, has again badly disrupted. Ed. Nagle and Jack Grimes have left college and are free lances in Ottawa. Madden and Heney are now at McGill and will probably figure on the red and white seven. Bill Doran, the goalkeeper, is at St. Francis Xavier, Antigonish. "Teddy" Behan, the speedy wing man, has taken a position in the military camp at Petawawa. Red Quail is the only one of the original team left.

SCIENCE '16 PRACTICE.

Will the members of the above team please report on the East Campus to-day at 4.30. No uniforms are required.

He Starred

HERRIE WOOLATT, who starred for the seniors in yesterday's clash between Science '16 and Science '18.

WILLIAMS TOO MUCH FOR THE R. M. C. CADETS

Army Team From Barrieffield Defeats Cadets By Score of 16-2.

HEAVY LINE A FACTOR

R. M. C. Team, Although Light, Showed Speed and Aggressiveness.

Outweighed by a large margin, but far from being outshone so far as variety of attack was concerned, the light R.M.C. went down to a 16 to 2 defeat at the hands of the Army on Queen's field on Saturday in the second battle of the Kingston City League series. The winners secured one touchdown through a costly fumble, while another was registered when Gates kicked into his own scrimmage. The latter could be attributed to a weakness of his own line rather than a piece of ill-luck, as the Army heavies were breaking through and blocking kicks throughout the entire afternoon. The best team won; of that there is no doubt, but the R.M.C. boys were better than the score showed and kept their heavier opponents hustling at all times.

It was a nice game of football played under ideal gridiron conditions. The play was open and both teams displayed a liking for clean rugby, and although a few of the gladiators were laid low and there was some scragging and holding on the line, there was a decided absence of dirty tactics much to the satisfaction of the fair-sized attendance.

The cadets were as midges beside their opponents, the difference in weight being very noticeable in the scrimmage and at the inside and middle positions. The little fellows showed a dash that was surprising, however, and varied their play with even greater effectiveness than the soldiers, only to be worn down in the third quarter when the back-field crumpled up under the strain for the moment and allowed the Army to roll up eleven points and place the game on ice.

Dibble on the Line.

On the wing line the Army showed very good bucking ability which lacked its real effectiveness because the work was of a purely individual effort, for very seldom was the man with the ball given any support. Dibble, the gigantic sculler, was used on numerous occasions, and did very good work, as did Jamieson, Skey and Shaw, the latter showing up in good style. Reid in the scrimmage was also a tower of strength. Lepper at right outside shaped up like a real good player. Not only did he tackle well, but he proved himself a ball carrier of speed and power. Gamey Stratton at quarter fed the backs well and handled the signals in good style, but was inclined to take too much of the work upon himself.

On the back division Jack Williams was the brilliant light of either team, and was easily the most effective man on the field. He ran with his old-time trickery, used rare judgment in his ploys and displayed the generalship that made him one of the most dangerous men who ever donned togs in the palmy days of the Big Four. Smith at left half shaped up very well also. He ran back punts in clever style, caught well and carried the ball for numerous gains, while Wright also played a strong game.

Jack Hazlett Referee.

Jack Hazlett was referee and Prof. McDonald umpire, and both gave on the satisfaction, although they tolerated considerable interference by both teams. The line-up was:

Army—Batten, flying wing; Smith, Williams and Wright, backs; Stratton, quarter; Johnston, Reid and Webster, scrimmage; Gregory and Shaw, insides; Dibble (Skey) and Jamieson (Cook), middles; Lepper and Mallard, outsides.

R. M. C.—Cassels, flying wing; McCarter, Gates and McLaren, backs; Ferrie, quarter; Wood, Cushing and Robertson, scrimmage; Saunders (Valbank) and Hogg, insides; Hay and O'Reilly (Vrooman), middles; Price (Brown) and Savage, outsides.

Both teams sported new regalia, the Army wearing a blue sweater with white emblem and the Cadets wearing a red and white suit, which was very striking, one arm being of red and the other of white, with a division of the colors on the sweater.

University of Toronto juniors assumed a big lead in the qualifying round for the finals at St. Thomas Saturday when they beat St. Thomas Collegiate Institute junior O. R. F. U. team 54 to 0. The visitors outclassed the Railroad lads in every department of the game, especially in kicking, in which Carrel, Garret and E. Douglas scored seven in the first quarter, sixteen in the second, seventeen in the third, and fourteen in the final.

SCIENCE '17 FOOTBALL.

A signal practice for all members of the Science '17 Football Team will be held this afternoon.

The men will meet in the Common Room of the Engineering Building, at 4.30 p.m. No uniforms are required, so there is little excuse for the men not turning out. It is urgent that all men who can should do so as the game to decide the Science Faculty Championship will be played on Friday.
